

Marcus Grant
Product Designer

pionezero@protonmail.ch | 262-421-5780 | Madison WI
pionezero.com | linkedin.com/in/cssninja

I'm a highly skilled Product Designer, utilizing visual, UI and UX design. My creative existence is absorbed in all things design: illustration, branding, graphic design, UI design for mobile and web, and UX design (from 'design thinking' in the beginning all the way to usability testing betas in the end, resulting in good product design.) Even out of the studio on breaks I'm still creating and problem solving with photography and building wooden things, including amazing high end meditation/design studio tree houses. I'm fully immersed and fluent in startup tech and culture, from AI to decentralized web to the ethereal math that empowers blockchain and algorithms.

----- Projects I Typically Do -----

- Product design with high visual, UI and UX appeal
